THE TOWNHOUSE | OUR PURPOSE

Our approach blends style with substance while focusing on supporting your businesses needs, today and in the future.

We believe in making serviced office space easy and effective for your business. As a family-run Scottish business, we pride ourselves on providing workspaces that offer both functionality and comfort, all while helping you grow and succeed no matter what stage you are at within your business.

Founded by a duo with decades of combined experience in both commercial property and hospitality, the vision was clear: to create an office environment where businesses can thrive without the hassle of rigid leases or sterile, impersonal spaces. We understand the frustrations of workspace solutions that may look appealing at first but ultimately fail to offer transparency and the flexibility your company needs.

THE TOWNHOUSE | WORK LIFE BALANCE

Culture in our City

Adopting the title of the UK'S top culture and creative city appointed by the European Commission ahead of London, Manchester, Bristol and Brighton, businesses in Glasgow are thriving.

With a handful of universities on the cities doorstep and an outstandingly highly educated pool of talent, hiring to the highest standard will not be an issue here.

With our elite shopping mile, supreme bar & restaurants, and show stopping theatres and museums there is always something to do in the city. From our world-famous venues such as our neighbours, King Tut's, to our multi-purpose indoor area along the road, The Hydro, Glasgow has an impressive reputation for attracting the very best within the music and entertainment industry.

Not to mention, it has the title of one of the friendliest cities in the UK (we agree).
